Automatic Controls Company can provide engineering, design, and support for your heating and process needs in all commercial and industrial environments. We have provided burner and boiler combustion controls, engineering, and support since 1954. This coupled with a complete UL Listed Panel Shop allows us to become your unique partner for all projects and applications.

Flame Safeguard Controls for Package Boilers and Industrial Boiler Applications

Solids & Liquid Level Switches and Transmitters using Float, Electro-Optic, and Ultrasonic Technology

Engineered Products and Systems for Control of Gas Combustion. Gas Burners for Ovens and Kilns

State-of-the-art Leader for the Control of Fluids and Gas Safety and Shutoff Valves

Love Controls

Flow, Pressure, & Temperature Sensors and Indicators for Process Controls

Complete Line of Combustion Controls, Burners, and Blowers

McDonnell & Miller-ITT

Residential, Commercial, and Industrial Flow Switches, Boiler and Liquid Level Controls

Thermocouples, RTDs, Thermowells, Temperature Calibrators, and Transmitters

CANTY PROCESS TECHNOLOGY

Process and Sanitary Lighting, Sight Flow Glasses, Quick Port Closures, Particle Analysis, and High Temp Surveillance and Furnace Cameras

Circuit Breakers, Contactors, Motor Starters, Time Delay Relays, and Counters

Proximity switches, Photo Cells, and Light Curtains

SENSAPHONE

Remote Monitors and Autodialers Including Wireless Communications

AUTROL®

Smart Pressure, Differential Pressure & Temperature Transmitters, HART Protocol

CCS DUAL-SNAP

Pressure Differential Pressure and Temperature Switches

Solenoid Valves for Liquid, Gas, and Air

Complete line of Timers and Relays
